

IN THE CLAIMS

508
2
-11. (Twice Amended) The electronic device of claim 10, wherein said heat conductive powder is at least one selected from the group consisting of alumina (Al_2O_3), aluminum nitride (AlN), cubic boron nitride (BN), beryllium oxide (BeO), and silicon carbide (SiC).--

-15. (Amended) A combination of an electronic device, susceptible to and/or generating magnetic waves, and having adjacent thereto a stationary electromagnetic interference suppressing article, said article comprising:
a first composite magnetic body, comprising a first soft magnetic powder and a first heat conductive powder dispersed through a first organic binding agent; and
an electrically conductive support, mounted on said first composite magnetic body.--

Please cancel claims 22-27 without prejudice or disclaimer.

REMARKS

Entry of the foregoing amendments, and reexamination and reconsideration of the subject application, pursuant to and consistent with 37 C.F.R. §1.104 and §1.112, and in light of the following remarks, are respectfully requested.
